Technical Amendments

Amendment Nos. 1- 4

DA02.01 Executive Department – Governor Office for Individuals with Disabilities

DA02.01 (A) Accessibility Modifications\$1,400,000
\$1,600,000

<u>Request</u>	<u>Authorization</u>	<u>Change</u>
1,600,000	1,400,000	(200,000)
	1,600,000	0

Explanation: ~~This reduction increases the agency's cash flow adjustment. This action will reduce the impact of this program, which is traditionally funded with PAYGO funds, on the general obligation bond limit, while still providing sufficient funds for likely project needs during the fiscal year. This action restores a \$200,000 cash flow reduction taken by the House and fully funds this program.~~

Amendment No. 5

DA03
Executive Department – Governor
Maryland Stadium Authority

DA03 (A) Camden Station Renovation.....\$0

<u>Request</u>	<u>Authorization</u>	<u>Change</u>
1,500,000	0	(1,500,000)

Explanation: These funds are not necessary as the Maryland Stadium Authority has received Legislative Policy Committee approval to issue revenue bonds for the entire Camden Station renovation project.

DB01
Historic St. Mary's City Commission

DB01 (A) Maryland Heritage Project.....\$290,000

Amend the following language:

Provide funds to design and construct a new pathway to the Maryland Dove Waterfront Site

Explanation: The language allows the funding to be used for construction as well as design.

<u>Request</u>	<u>Authorization</u>	<u>Change</u>
58,000	290,000	232,000

Explanation: The project is currently ahead of schedule and can be completed at a lower cost than originally estimated. Funds totaling \$43,000 are available from previous capital projects and Historic St. Mary's City has received a \$12,000 grant from the local garden club to be applied to this project.

**DE02.01
Board of Public Works
General State Facilities**

DE02.01 (D) Capital Facilities Renewal.....\$8,500,000
\$10,000,000

<u>Request</u>	<u>Authorization</u>	<u>Change</u>
10,000,000	8,500,000	(1,500,000)
	10,000,000	0

Explanation: ~~In light of the State's current fiscal condition, funding for capital facilities renewal is reduced.~~ This action restores \$1,500,000 in funds to Capital Facilities Renewal.

Amendment No. **6**

DE02.01 (J) Underground Heating Oil Storage Tank Replacement Program.....\$0

<u>Request</u>	<u>Authorization</u>	<u>Change</u>
1,000,000	0	(1,000,000)

Explanation: Funding is deleted for the Underground Heating Oil Storage Tank Replacement Program.

Amendment No. **7**

DE02.01 (L) New Rockville District Court\$2,700,000

Add the following language:

(L) New Rockville District Court. Provide funds to prepare preliminary plans to construct a new district court in Rockville..... 2,700,000

DE02.01

Explanation: The language adds the Rockville District Court to the bill.

Request

Authorization

Change

2,700,000

2,700,000

Explanation: This language adds the planning funds for fiscal 2004. With these funds, planning can begin on the construction of a new district court in Rockville.

Amendment No. 8

Committee Narrative

Capital Facilities Renewal Project List: The committees request that the Department of General Services follow the \$68.5 million project list provided to the General Assembly. Recognizing that unforeseen emergencies may need to be handled immediately, the committees request that a letter of notification be sent to the chairmen of the budget committees and to the Department of Legislative Services regarding any changes to the list, prior to expenditures.

DE02.01

Public Safety Communications System: The committees are concerned about the current pace of build-out of the Public Safety Communications System. While recognizing that there remains a certain level of uncertainty about when the spectrum to be used by the system will be made available by the Federal Communications Commission (FCC), recent actions of the FCC indicate that it is committed to making the spectrum available on December 31, 2006. Other states are moving ahead with the development of similar statewide systems in preparation for the spectrum being made available at that time. The committees understand that the Department of Budget and Management (DBM) is working to partner with local jurisdictions to speed system development, which also may reduce total State costs, and is also seeking federal assistance. DBM should report back to the committees by September 1, 2003, detailing efforts to formalize local contributions and seek federal grant funds as well as the development of a revised time-line for the completion of the system to include specific project detail and funding recommendations.

Public School Construction**

DE02.02 (A) Public School Construction.....~~\$90,900,000~~
\$107,622,000

Strike the following language:

~~provided that no portion of any PAYGO or capital funds appropriated for the Public School Construction Program shall be expended on the proposed Center for Educational Facilities~~

~~**Explanation:** This language prohibits any expenditure from the Public School Construction Program on a proposed Center for Educational Facilities.~~

KA05

Add the following language:

The Department of Natural Resources shall submit to the budget committees information about land acquisition and conservation easement purchases that exceed \$2,000,000 45 days prior to seeking Board of Public Works approval for these expenditures. The information provided shall include a thorough analysis of the benefits and risks of the proposed action and a complete accounting of the State, federal, local and private funds involved.

Explanation: *In December 2002, the Department of Natural Resources (DNR) made the second largest land preservation purchase in State history, known as the Glatfelter property acquisition. The process by which the budget committees were made aware of this large acquisition was wrought with incomplete and inconsistent information, as well as last minute maneuvers. To ensure that the budget committees are given adequate notice of DNR's intent to move forward with large land preservation proposals, this budget bill language would require DNR to inform the budget committees of proposed projects greater than or equal to \$2.0 million.*

Explanation: ~~This action will bring the appropriation for this program closer to the fiscal 2003 funding level of \$17.3 million. As of January 2003, \$54.6 million in program funding from fiscal 2002 and prior years had yet to be encumbered.~~ *This action restores funding for Program Open Space.*

The Community Parks and Playgrounds Program provides grants to local governments to restore or create community parks and playgrounds, with a focus on older urban neighborhoods and intensely developed areas. This action deletes funding for the Community Parks and Playgrounds program.~~

Committee Narrative

Land Preservation Via Conservation Easements: *The Department of Natural Resources (DNR) is using conservation easements with increasing frequency to preserve land throughout the State. In December 2002, the State's second largest land preservation purchase was accomplished primarily through the use of conservation easements. DNR should submit a report by October 1, 2003, providing the following information: the benefits and disadvantages of utilizing conservation easements as a land preservation strategy; a list of State programs that utilize conservation easements as a land preservation strategy; and a description of DNR's efforts to track and manage conservation easements throughout the State.*

	5,000,000	0

Explanation: ~~This action would provide the Tobacco Transition Program with a total of \$9.1 million in fiscal 2004, a \$2.8 million increase over the fiscal 2003 appropriation. \$6.1 million in special funds is provided for the program in the fiscal 2004 operating budget. Chapter 103 of the Acts of 2001 authorized \$5,000,000 in bonds for the tobacco transition program for fiscal 2004. Also, included in the fiscal 2004 capital bond bill is \$5,000,000 for this program. To correct the duplicative authorization, a technical amendment will delete the funds provided through Chapter 103 Acts of 2001. The House action in the capital bond bill provides \$3,000,000 for the tobacco transition program, whereas Senate action is consistent with the existing \$5,000,000 authorization.~~

Explanation: The Maryland Agricultural Cost Share Program has over \$1.1 million in unencumbered funds and \$8.7 million in unexpended funds from fiscal 2002 and prior year appropriations. With this recommended reduction of \$1.0 million, the program would receive the same level of funding as in fiscal 2003.

Committee Narrative

Maryland Agricultural Land Preservation Foundation (MALPF): MALPF has numerous conservation easement contracts and offers pending from previous fiscal years. The large number of pending agreements is due to successful backlog reduction efforts. The backlog of agreements was the result of outdated program management practices that should be changed. Settlement is anticipated on nearly all MALPF easement offers made prior to fiscal 2003 by the end of the current fiscal year. Therefore, it is the intent of the committees that existing MALPF applicants be given priority over new applicants in fiscal 2004. MALPF should exercise its authority to use fiscal 2004 appropriations to complete conservation easement contracts from prior years and to make conservation easement offers to applicants from the fiscal 2003 easement cycle.

ML01

The most recent report, completed in August 1999, opted to keep all three hospitals but noted that significant capital improvements are required to modernize them. However, no movement has been made to make those improvements and it is unclear if there is a commitment to make the necessary capital investment (over \$174 million in current year dollars). Without that investment, operational and staffing efficiencies cannot be made and the treatment environment is inadequate.

The proposed language ~~provides design funds for a new hospital at either Crownsville or Spring Grove and~~ requires the department to submit a plan to the budget and relevant policy committees for a network of State-run psychiatric facilities to include only two large regional hospitals. ~~The language expresses legislative intent that if the department does not commit to such a network the design funds will be deauthorized in fiscal 2005.~~ This language is consistent with similar language adopted in the operating budget.

Explanation: This language indicates that the fiscal 2005 budget should include \$1.0 million for this project. This allows the university to expend its own funds to equip this building in fiscal 2004 with the assurance that the university will be provided reimbursement up to the \$1.0 million for eligible capital equipment.

Before the project goes to bid, the university shall provide a report to the budget committees and the Board of Public Works on the use of construction management services for the project and the projected cost of the services. The budget committees shall have 45 days to review and comment on the report~~

<u>Request</u>	<u>Authorization</u>	<u>Change</u>
48,968,000	51,468,000 48,968,000	2,500,000 0

~~**Explanation:** Additional funds have been authorized to make use of the best available management strategies in completing this capital improvement in a timely and efficient fashion. Construction managers (CM) can assume a number of different roles, depending on the contract. This language ensures that the university has the opportunity to use a CM agent as a consultant during construction to assist in bidding and representing the university's and the State's interest throughout the project, as institutions in the University System of Maryland and St. Mary's College have utilized CM services previously. Additionally, this language allows for the flexibility, if desired, to contract with a CM to assume the role of full project manager. The use of a CM for the library project is intended only to augment, not delay, the project. Given the difficulties encountered with the site for the project and the delay in demolition of the existing building, the budget committees believe that construction management services will be a valuable addition to the project. The budget committees request a report from the University before the project goes to bid on the use of CM services.~~

Committee Narrative

Housing Policy Study: The committees are concerned that the State presently lacks a comprehensive housing policy and strategic plan for addressing the housing needs of Marylanders. Accordingly, consistent with Executive Order 01.01.2003.10 the committees direct the Department of Housing and Community Development (DHCD) to prepare and submit a strategic planning report that provides recommendations for specific and measurable actions that can be taken to increase and preserve quality affordable housing in all Maryland communities. Specifically, DHCD shall review the procedures and practices currently used in the State administration of housing and community development policies. In its review, the department shall utilize existing studies, reports, and census data to examine the state of affordable housing in Maryland including:

- the need for preservation and production of rental housing and special needs housing including transitional housing and shelters for the homeless;
- homeownership opportunities, including the potential of the Downpayment and Settlement Expense Program. DHCD should examine the way in which resources have been allocated in the past and ways in which the program may be reformed to make it easier for residents in every area of the State to secure affordable housing, with a special focus on areas that currently have lower rates of home ownership;
- barriers including, economic factors, local government regulations and procedures, and community support and perceptions;
- successful, working initiatives in place at the State and local level, as well as national initiatives replicable in Maryland;
- challenges facing healthy, at-risk, distressed, and blighted communities, as well as urban, suburban, and rural areas;
- the need for and impact of housing choice vouchers and other forms of housing assistance; and
- the impact Priority Funding Area designations have on communities in the State.

SA00

The study shall also examine industry trends in the location, production, and rehabilitation of single-family and multi-family housing, and review the methodology and recommendations of the federal Millennial Housing Commission. Finally, the study shall develop a statewide typology, or set of categories of different types of communities, for the application and allocation of State housing and community development programs and resources to reflect the diverse range of conditions and needs across the State and ensure that the appropriate resources are available and used to address the problems identified in the report. DHCD shall submit an interim report to the committees by September 30, 2004, and final report with recommendations on or before December 31, 2004.

Baltimore City Lead Paint Abatement Program: Language added to the budget bill in fiscal 2003 directed the Department of Housing and Community Development (DHCD) to transfer administration of the Baltimore City Lead Hazard Reduction Grant Program (LHRGP) to the Baltimore City Health Department (BCHD) or some other designee. This included the transfer of all State appropriations made in support of the city's LHRGP program. A Memorandum of Understanding (MOU) was executed effectuating this transfer. The committees direct that the \$1.0 million of fiscal 2004 General Obligation Bonds and the ~~\$437,500~~ \$875,000 of general fund State funding provided in support of the Baltimore City LHRGP be transferred to the Baltimore City Health Department in accordance with the MOU that is currently in place. The committees further direct that an MOU between DHCD and BCHD be executed governing the use of the State funds through fiscal 2004. The MOU requested shall provide that the distribution of LHRGP grants and loans in Baltimore City shall be made in accordance with the following provisions:

- priority shall be given to homeowners whose annual family income is below 80% of the State's median family income;

SA00

- priority shall be given to owners of less than four total properties, including those properties held by Limited Liability Companies; and
- grants and loans may not be made to applicants who have any properties within Baltimore City for which safety and health code violations exist, unless the applicant can demonstrate that appropriate action is being taken to remedy those violations.
- BCHD shall submit quarterly reports to DHCD that include statistical data on the use of the grant proceeds. The statistical data shall include the name of each lead abatement grant or loan recipient, the amount of each grant or loan provided, and the property address for which lead abatement grants and loan funds have been made available. The statistical data shall be segregated so as to separately report information on completed lead abatement projects for which grant and loan funds have been expended, and those projects considered to be in the pipeline and not completed but where funds have been encumbered.

VA01 (B) Cheltenham Youth Facility\$0

Amend the following language:

It is the intent of the General Assembly that funds awarded for demolition in fiscal 2003 be used to plan for the entire demolition of the campus. Further, the Department of Juvenile Justice shall demonstrate the need for any new facility at Cheltenham and develop a Part I and II Facility Program to be approved considered by the Departments of Budget and Management and General Services for a new facility at Cheltenham with a view towards requesting:

- (1) preliminary design funds in fiscal 2005;
- (2) detailed planning funds in fiscal 2006; and
- (3) construction funding beginning in fiscal 2007.

Explanation: The language expresses legislative intent that previously approved funds for demolition at the Cheltenham Youth Facility be used for the design of campus-wide demolition as part of a plan to develop a new facility at Cheltenham along a proposed time-line.

VA01

The language is intended to spur the Department of Juvenile Justice (DJJ) to submit a Part *I and II* Facility Program for approval by the Departments of Budget and Management and General Services. Currently that approval has not been sought and it remains unclear what specific residential programming DJJ intends to have at Cheltenham.

If DJJ can get a Part *I and II* Facility program approved, then they can seek design funding beginning in fiscal 2005 and construction funding beginning in fiscal 2007. Proceeding with such a time-table and utilizing the demolition funds as has been suggested would allow for a single construction and demolition to be awarded, and avoids the need for regrading and subsequent excavation as well as additional utility work.

<u>Request</u>	<u>Authorization</u>	<u>Change</u>

Explanation: The reduction defers demolition consistent with the General Assembly’s intent to move forward with demolition when plans are approved for a new facility at Cheltenham.

WA01
Department of State Police

Add the following language to the budget bill:

(D)	<u>DNA Storage Facility. Provide additional funds to construct and equip a DNA storage facility (Baltimore County)</u>	<u>125,000</u>
-----	--	----------------

Explanation: This language adds the DNA Storage Facility project to the bill.

<u>Request</u>	<u>Authorization</u>	<u>Change</u>
	125,000	125,000

Explanation: The addition of this project provides funds to complete the Department of State Police DNA Storage Facility in fiscal 2004. The Maryland Consolidated Capital Bond Loan of 2002 provided \$331,000 for the conversion of an existing bunker at State Police headquarters into an appropriate facility in which to store DNA evidence. However, the cost of the project has risen from original projections, and the State Police advise that the addition of \$125,000 in fiscal 2004 should provide sufficient funds for completion of the project.

Committee Narrative

Co-location of State Police and County Law Enforcement Facilities: The committees are interested in understanding the possibility of locating future State Police facilities at the same site as existing or new local law enforcement facilities. Locating new or replacement State Police barracks and other facilities at the same site as local law enforcement facilities requires coordination of project schedules, coordination of project funding, and resolution of general administrative and other facility management issues prior to construction. However, the efficiencies from having these entities share space may outweigh these challenges. The Department of State Police (DSP) shall prepare a report addressing this issue and identify the positives and negatives in working to co-locate future State Police facilities with local law enforcement facilities. The State Police have been typically replacing or expanding barracks around the State at the rate of one or two each year. For example, the State Police recently

WA01

moved into a new barracks facility in Frederick, Maryland. The new facility shares space with the Frederick County Sheriff, the county's 911 services, and other local entities. The report should address the possibility of working with local law enforcement agencies to co-locate facilities in the future.

Explanation: ~~This language adds local projects known as Community Based Regional Initiatives (CBRIs) that were initially funded by the House of Delegates in fiscal 2003. Section 12 of the fiscal 2003 capital budget bill included language expressing the intent of the General Assembly to provide \$15 million for the CBRIs requested in fiscal 2003 if funds are available, and that the CBRIs initially funded by the House would be given special consideration during the 2003 session. The Governor included \$15 million in the fiscal 2004 capital budget for legislative initiatives. A total of \$12.7 million is included for local projects, including CBRIs initially funded by the House that were re-introduced in the 2003 session.~~

Amendment No. 28

This loan shall be evidenced by the issuance, sale, and delivery of State general obligation bonds authorized by a resolution of the Board of Public Works and issued, sold, and delivered in accordance with §§ 8-117 through 8-124 of the State Finance and Procurement Article and Article 31, § 22 of the Code.

Explanation: *Technical amendment to delete the duplicative funds authorized through Chapter 103 Acts of 2001. Funding for the program is provided in the fiscal 2004 capital bond bill.*

Amendment No. **33**

Add the following language:

Section 1(3)

<u>RD00</u>	<u>ST. MARY’S COLLEGE OF MARYLAND</u>	
<u>(A)</u>	<u>New Academic Building. Provide funds to prepare detailed design for the new Academic Building AND THE EXTENSION OF UTILITIES TO OTHER CAMPUS FACILITIES (St. Mary’s County)</u>	<u>1,543,000</u>

Explanation: This language allows funds authorized for detailed design to also be used to extend the utilities to other campus facilities.

Section 11

Strike the following Section:

~~SECTION 11. AND BE IT FURTHER ENACTED, That when a historical easement is granted to the Maryland Historical Trust in Section 1(3), Item ZD01:~~

~~(a) Grantees shall, prior to the issuance of the bonds, grant and convey to the Maryland Historical Trust a perpetual preservation easement to the extent of its interest:~~

~~(1) On the land or such portion of the land acceptable to the Trust; and~~

~~(2) On the exterior and interior, where appropriate, of the historic structures;~~

~~(b) If the grantee or beneficiary of the grant holds a lease on the land and structures, the Trust may accept an easement on the leasehold interest;~~

~~(c) The easement must be in form and substance acceptable to the Trust and any liens or encumbrances against the land or the structures must be acceptable to the Trust.~~

Explanation: The language adds a requirement concerning granting easements to the Maryland Historical Trust.

Amendment No. 34

Section 11

SECTION 11. AND BE IT FURTHER ENACTED, That, the Green Building Pilot Program shall be expanded to include only those capital projects in the *pilot* fiscal 2004 Capital Improvement Program that have an approved total project cost estimate that includes specific funds for green design and construction. This pilot program requires that the following newly constructed or renovated State-owned building projects will be designed and built to conform to the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) silver rating:

- (1) Hammerman Beach Services Building at Gunpowder Falls State Park
- (2) 140-Bed Minimum Security Housing Unit at the Eastern Correctional Institution.
- (3) Third housing unit at the North Branch Correctional Institution
- (4) 2100 Guilford Avenue - State Office Building #3
- (5) Roberts and Jackson Cottages at Rosewood Center
- (6) Biological Sciences Research Building at the University of Maryland, College Park
- (7) Center for Business and Graduate Studies at Bowie State University
- (8) Health and Human Services Building at Coppin State College
- (9)(2) Student Services Building at St. Mary's College
- (10)(3) Academic Building at St. Mary's College.
- (11) Banneker Hall Renovation at Morgan State University
- (12) Hagerstown Barrack and Garage/Communications Building.

As the above listed projects are completed, the Department of General Services shall collect the actual cost data on the additional costs associated with incorporating green design and construction. This data is to be evaluated to facilitate an assessment of the cost of implementing the program statewide. Following the first and second years after construction is completed, for each project based on information derived from each project's measurement and verification program, the Department of General Services shall review: (1) the reported energy savings; (2) other savings attributable to the green building components of the project; and (3) whether incorporating green building components is beneficial for all types of projects. Further, for those projects not listed above but included in the fiscal 2004 Capital Improvement Program with an approved total project cost estimate that includes specific funds for green design and construction, the green design and construction cost elements shall be deleted from the total project cost. The Department of Budget and Management shall adjust each project's funding requirements to reflect the deletion of those costs in the subsequent funding years.

Section 11

Explanation: This language expands *reaffirms* the Green Building pilot program. ~~to include all of the current capital projects that have an approved total project cost estimate that includes specific funds for green design and construction. The expansion of~~ The pilot program will provide more data on which to evaluate the overall value of building green in the State of Maryland. This language ensures that if the executive order for green buildings is rescinded, the listed projects included in the pilot program will continue to completion with the green building components.
