**Q**  
**Department of Public Safety and Correctional Services**

**Committee Narrative**

**Develop a New Site for Prison Construction:** The Department of Public Safety and Correctional Services (DPSCS) has experienced a significant increase in the number of inmates and detainees in its custody. While the department has begun the process of building a new prison, the progress has been insufficient to meet the increased need. The result is use of substandard, non-conventional housing, which diminishes the available program and support space. The department's current plan revolves around increasing the housing stock within secure perimeters of existing facilities and in outlying areas. This plan may create additional operational difficulties. The budget committees direct the department to develop a new construction plan which focuses on prison construction in a manner that creates the greatest operational efficiencies and report to the budget committees by November 1, 2004.

- (3) the budget committees have reviewed and commented on the cost estimate or 45 days have elapsed from the date the cost estimate is received by the committees

**Explanation:** The current request is for funding for the acquisition of land adjacent to the Baltimore City Detention Center. This acquisition will provide land to construct two new facilities for female and youthful offenders. The two new facilities are part of a larger plan to respond to allegations of conditions that violate the offenders and detainees constitutional rights against cruel and unusual punishment levied by the U.S. Department of Justice.

**Explanation:** The language specifies \$15.2 million in local projects initially approved by the Senate to be funded under the Legislative Community Initiatives Loan of 2004 that was pre-approved as part of the fiscal 2004 capital bill. The language leaves \$2.5 million available for local projects initially approved by the House. A different section of the fiscal 2004 capital bill has already pre-approved \$12.7 million in House-approved local projects.

### **Senate Local Projects**

Further, it should be noted that the funding of the Eastport Fire Station and Paramedic Unit is not intended to be contrary to long-standing State policy that responsibility for funding local fire stations is a local one. An exception is made for this particular fire station because it offers first response to the Annapolis State Government Complex. This exception is similar to the one made to the Annapolis Emergency Operations Center in the 2003 capital budget, again because that center serves the Annapolis State Government Complex.

## Article – Natural Resources

Strike the following language:

### ~~Article – Natural Resources~~

~~[5—9A09.~~

~~The Governor shall include in the annual capital budget an amount not less than \$5 million of this program.]~~

**Explanation:** This action retains statutory language requiring the Governor to include at least \$5.0 million in the annual capital budget for the Rural Legacy Program.

Amendment No. 40

## Section 11

Amend the following language:

- (a) ~~the comptroller may advance funds from any loan fund account to any other loan fund account established pursuant to a general obligation bond loan enabling act, under the authority of which general obligation bonds have been issued, for any expenditure authorized by that act; and~~
- (b) ~~with the approval of the Board of Public Works, the Comptroller may advance funds to any loan fund account established pursuant to a general obligation bond loan enabling act, for which an approving legal opinion has been received by the Board, for any expenditure authorized by that act, provided that the next ensuing sale of general obligation bonds shall include the issuance of bonds under the authority of that act in an amount at least equivalent to the amount of funds so advanced.~~

the Comptroller may advance funds to any loan funds account established pursuant to a general obligation bond loan enabling act, for any expenditure authorized by that act, provided that if the general obligation bonds have not been issued under the authority of that act, the next ensuing sale of general obligation bonds shall include the issuance of bonds under the authority of that act in an amount at least equivalent to the amount of funds so advanced.

**Explanation:** This language strikes and replaces Section 11 in its entirety so that it is consistent with legislation enacted in the 2003 Session concerning the change from a project based to a cash based accounting system with regards to the use of general obligation bond loan proceeds.
