Note: The general fund appropriation for the DHCD Rental Housing Program, Homeownership Program, and Special Loans Programs Community Legacy Program are reduced by a total of \$5.1 million contingent upon the enactment of legislation transferring unallocated reserve funds from the Maryland Housing Fund to each of these programs. Authorization to increase the special fund appropriation for each of these programs by a combined \$5.1 million is also contingent upon the same legislation.

DB01 (A) Maryland Heritage Interpretive Center \$0

<u>Request</u>	<u>Authorization</u>	<u>Change</u>
1,487,000	0	-1,487,000

Explanation: This action deletes funding for detailed design. Construction funding is not programmed for this project until fiscal 2013, and the detailed design funds should be deferred and authorized closer to when the construction authorization is planned. Initial design funds authorized in the 2007 capital budget bill will allow initial design to proceed in fiscal 2009.

<u>Request</u>	<u>Authorization</u>	<u>Change</u>
3,000,000	3,000,000	0

Explanation: The scope for this project has changed significantly from prior years and could change further depending on the ultimate disposition of the building. The language requires submittal of a project plan that describes the Administration’s ultimate intended purpose for the building to ensure that renovations coincide with long term usage decisions.

Explanation: This action *further* reduces funding for the New Rockville District Court and requires that the project be constructed on the Old Rockville Library site.

Amendment No. **3**

Committee Narrative

Capital Facilities Renewal Project List: The committees request that the Department of General Services (DGS) follow the project priority list provided to the General Assembly in the 2008 session. Recognizing that unforeseen emergencies may need to be handled immediately, the committees request that a letter of notification be sent to the chairmen of the budget committees and to the Department of Legislative Services regarding any changes to the list prior to expenditure.

Facility Maintenance and Renewal Program: The committees are concerned that the demand for State facility maintenance and renewal funding far exceeds the State's capacity under the current funding structure to adequately support these programs and ensure that State assets are properly maintained. The committees request that the Department of Budget and Management (DBM) coordinate with other State agencies that operate State facility maintenance and renewal programs, in particular the Department of General Services and the University System of Maryland, in the development of a strategic plan for improving the State's entire facility maintenance and renewal process, including facility assessment, project management, project procurement, and programmatic funding levels and sources. The strategic plan should include a best practices survey of how other states fund facility maintenance and renewal and provide recommendations for how the State could potentially implement some or all of the best management practices, including a life-cycle facility accounting system. The committees' further request that the strategic plan include draft legislation that would establish a State facility maintenance and renewal special non-lapsing fund for potential consideration by the General Assembly during the 2009 session. The draft legislation should include funding mechanisms that would provide a dedicated source of funds to annually replenish the special non-lapsing fund. The strategic plan and draft legislation shall be submitted to the budget committees on or before October 1, 2008.

DE0201

Catonsville District Court: The committees are concerned that the District Court may seek to engage a private developer for a developer-owned lease facility for a new District Court building to replace the existing Catonsville District Court. A lease, whether it be determined to be capital in nature or an operating lease, could have serious fiscal implications on future State budgets and should be thoroughly reviewed by the Department of Budget and Management (DBM), the Comptroller's General Accounting Division (GAD), and the budget committees prior to the submittal of any such a lease for approval by the Board of Public Works (BPW). If the District Court seeks a lease as an option for replacing the existing Catonsville District Court, the court shall first submit a project justification and a copy of the negotiated lease to DBM and GAD. Within 45 days of receiving the above referenced material, DBM and GAD shall provide the budget committees with a letter evidencing their review and recommendations concerning the leases' budgetary and financial implication on future State budgets and debt affordability. The budget committees shall have 45 days to review and comment on the documents provided by DBM and GAD prior to the District Court presenting a lease to BPW for its approval.

Capital Grant Agreement Process Should Encourage Minority Business Enterprise Participation: The committees request the Board of Public Works (BPW) to coordinate a review of the grant application procedures used by various State agencies in the administration of capital grants funded by those agencies. The purpose of this review is for BPW to provide guidance that will improve grant application procedures used by State agencies to ensure that the grant applications and all instructions for completing grant applications clearly articulate the State's interest to promote the use of minority business enterprise participation on contracts funded in part or in whole with State capital grant funds. As part of its review, BPW should provide recommendations directly to State agencies that will guide those agencies on ways in which their grant applications and grant application procedures may be improved. In addition, BPW should post an advisory on its web page that clearly articulates the State's interest in seeking minority business participation on contracts funded in part or in whole with State capital appropriations.

Amend the following language:

~~Rural Legacy Program. Provide funds for the purchase of conservation easements and the acquisition of land. ~~Further provided that prior to any expenditure of these funds DNR shall provide the budget committees with a letter indicating the amount of each project intended to be funded with this authorization. The budget committees shall have 45 days to review and comment upon receipt of the letter.~~

K00A

Explanation: The General Assembly is concerned that the write down in the fiscal 2009 transfer tax revenue estimate has inhibited the completion of Department of Natural Resources capital development projects that were funded in fiscal 2008 and that require fiscal 2009 construction funding. Therefore, the General Assembly restricts the \$5.0 million general obligation bond appropriation for the Rural Legacy Program to capital development projects initially funded in fiscal 2008 for design but for which reduced State transfer tax revenue preclude fiscal 2009 construction funding.

3,000,000	1,800,000	-1,200,000

<u>Request</u>	<u>Authorization</u>	<u>Change</u>
2,672,000	1,072,000	-1,600,000

Explanation: One project (Dorchester County Choptank Community Health System, Inc.) that anticipated encumbering funds in fiscal 2008 appears to be stalled and, therefore, will not be encumbering the funds in fiscal 2008. These funds remain available to provide funding for the fiscal 2009 proposed projects.

Committee Narrative

Federally Qualified Health Centers in Every Medically Underserved Area (MUA): The committees are concerned that the State has 47 designated medically underserved areas but only 34 of those areas have federally qualified health centers (FQHCs). The Department of Health and Mental Hygiene (DHMH) should provide the committees with a plan for ensuring that all MUAs have a FQHC. In those situations when it may not be possible DHMH should provide the reasoning.

The management consultant shall be hired through a competitive procurement, subject to approval of the scope of work and the selection criteria by the Department of Budget and Management.

(b) The management consultant's review shall include an evaluation of the deficiencies identified and recommendations made in the Office of Legislative Audits Report on Morgan State University, February 2008; the University's Plan for Addressing Current Internal Control Deficiencies in Construction Management, dated March 10, 2008; the university's process, procedures, and staffing to manage capital projects from proposal through project completion; the current and proposed structure and staffing of the university's Department of Design and Construction; the role of the university's Board of Regents in exercising its oversight responsibilities; the role of the university's Internal Audit Office; and the appropriateness of using construction management firms to manage large or complex projects.

The revisions shall address the management consultant's recommendations and the deficiencies identified in the Office of Legislative Audits Report on Morgan State University, February 2008.

(b) The revised capital project management and internal controls shall ensure, at a minimum, that undefined allowances are not included in requests for bids on capital projects; change orders are not processed without prior approval; and capital project expenditures are not split to remain below the threshold for Board of Public Works approval.

Committee Narrative

Infrastructure Improvement Plan: The General Assembly is concerned that the Maryland Environmental Service (MES) does not have an infrastructure improvement plan that justifies the significant increase in the five-year Capital Improvement Program (CIP) funding projection for the State Water and Sewer Infrastructure Improvement Fund. Therefore, MES should submit to the budget committees an infrastructure improvement plan for the State water and wastewater facilities it manages that justifies the five-year CIP funding projection. This infrastructure improvement plan should be submitted on February 1, 2009, and should include the following for each State facility MES manages: infrastructure description, plant performance data, permit requirements and expiration dates, user agency needs, and the projected costs to meet permit requirements and to maintain facilities in a cost-effective manner.

Local Jails and Detention Centers

Committee Narrative

Local Jails and Detention Centers Population Statistics Report: As overseer of the Local Jails and Detention Center Capital Improvement Program, the committees direct the Department of Public Safety and Correctional Services (DPSCS), on an annual basis, to coordinate the submission of local jail and detention center population statistics on behalf of the counties and provide that information in a report to the budget committees. At a minimum, the report shall include:

- the design capacity and operational capacity for each facility, making note of specialized population beds which cannot be used by general population inmates;
- the total average daily population for the fiscal year for total population and separated by male and female offenders;
- the number of days the population exceeded operational capacity;
- the most consecutive days the population exceeded capacity;
- the range in the number of inmates exceeding operational capacity;
- the average amount the population exceeded capacity; ~~and~~
- the peak inmate population; *and*
- *the average number of federal prisoners/detainees held by each county.*

Receipt of this information for every county on an annual basis would allow the General Assembly, the Department of Budget and Management, DPSCS, and the counties to better assess local jails and detention centers capital needs. The report shall be submitted to the budget committees no later than September 1, 2008, and annually thereafter.
